NEWS

FROM THE T.S.A.

CADBURY LEAGUE '83

The Cadbury League for 1983 commences on Sunday, April 10th with a double header programme at South Hobart and will continue with a double header programme at K.G.V. on Wednesday April 13th.

The change in format this year will see all Cadbury League matches played as double headers on Wednesday nights at K.G.V. and Sunday afternoons at South Hobart. This will enable all other soccer supporters to watch the premier competition as all other competitions will be played on Saturdays.

NOTE FOR CADBURY LEAGUE PLAYERS:- With all your matches now scheduled as stated above how about coaching some Juniors? From the Primary ranks through to club Under 17 teams are always looking for coaches - if you are able to assist then contact the T.S.A. office so that you can be put in touch with a team that needs assistance.

25 YEARS AGO THIS WEEK

It was reported to the meeting of March 31st 1958 that the net missing from South Hobart had been borrowed in error by the cricket club and that it had now been returned. (After cricket practice?)

The opening day matches for the 1958 season saw a total of six matches scheduled and included South Hobart (two teams), Hollandia, Rapide, Juventus, Wanderers, Goodwood, A.N.M. & Croatia. Other teams taking part in a split round were Rangers, Metro, Kingston, Calies and University.

In 1958 it appeared as though University had strip problems in that the Goodwood club offered to loan the students a set of shirts.

NEWS - all clubs, committees, supporters are invited to submit material for publication in SOCCER '83 NEWS - to date out of a total of 21 clubs only two (Croatia & Juventus) have submitted copy - help the Association to make this publication a truly worthwhile venture. All copy can be left at the office, 42 Darcy Street, South Hobart. Thank you.

ROSTERS - 1983

As previously reported the 1983 rosters are scheduled to commence on April 9th in all Divisions.

The actual match schedules are not yet available this being due to the late withdrawal of the former Hobart Derwent club necessitating all schedules having to be re-drawn. It is expected that schedules for at least the 9th & 16th April will be available during the week commencing March 28th.

Anyone requiring extra copies of the printed Cadbury League ıedules can obtain them from the T.S.A. Office.

PRESS REPORTS

Earlier this year the Mercury embarked on a new sports results page every Tuesday morning - this being a replacement of the sports reports previously published in the suburbans.

ALL persons involved with lodging reports last year or those who will be undertaking the work this year are reminded of this change and should note that copy must be lodged with the Mercury by noon on Monday - remember - double spaced, typed (if possible) and one side of the paper only will help in getting YOUR reports printed.

With the co-operation of the Referees organisation it is expected that all T.S.A. results from Under 13 upwards will be printed every Tuesday in the Mercury.

REFEREE'S VIEWPOINT

THE PENALTY KICK

A direct free kick is awarded against any player who INTENTIONALLY commits any one of the following NINE offences-

1. Kicks OR attempts to kick an opponent.
2. Strikes OR attempts to strike an opponent or spits at him.
3. Jumps at an opponent.
4. Trips an opponent.
5. Charges an opponent in a violent or dangerous manner.
6. Holds an opponent.
7. Pushes an opponent.
8. Handles the ball. i.e. carries, strikes or propels the ball with hand or arm.
9. Charges an opponent from behind unless obstructed

If a defending player commits (INTENTIONALLY) one of the above nine offences in his own penalty area, a penalty kick is awarded. A penalty kick can be awarded irrespective of where the ball is, provided it is in play at the time the offence occured.

A penalty kick shall be taken from the penalty mark, and, when it is being taken, all players, with the exception of the opposing goalkeeper and the player taking the penalty kick, shall be on the field of play but outside the penalty area and at least 9.15metres (10yds) from the penalty mark. The opposing goalkeeper must stand on his own goal-line (without moving his feet) between the goal posts until the ball is kicked. The ball must be kicked forward and the player taking the kick may not play the ball a second time until it has been touched or played by another player. The ball is deemed to be in play as soon as it is kicked. A goal may be scored direct from a penalty kick.

For any infringement of this Law-
By defending team - the kick is to be retaken if a goal has not been scored.
By the attacking team, other than the kicker, if a goal is scored it is disallowed and the kick retaken.
By the player taking the kick - after the ball is in play, an indirect free kick is awarded to the defending team from where the infringement occurred.

If a penalty kick is to be retaken for an infringement by any player other than the defending goalkeeper the player(s) will be cautioned. Any subsequent offence by the defending goalkeeper causing the penalty to be retaken he will be cautioned.

When time has been extended to allow the kick to be taken, the extension will last only until the kick has been completed - i.e. until the Referee decides that a goal has been scored or not.

CLUB NEWS

On page 1 of this SOCCER '83 NEWS it is stated that only two clubs had furnished news - apologies go to Rapid Wrest Pt who have also submitted news and to Olympia whose news follows-

OLYMPIA

The Olympia Soccer Club are holding an Easter Dance on Saturday, April 2nd at Hellenic Hall commencing at 7.30pm until late. Melbourne band The Olympians will be appearing and a great night is assured - everyone welcome.

Good luck goes to Perry Forster who will be playing for Heidleberg for two roster games in the National League.

This year the club will be fielding teams in the Cadbury League Seniors and Reserves, Rothmans Division III, Under 17, Under 15 and a Ladies team. Anyone interested in playing with the club may contact John Anagnostis on 349293 during business hours, or Mike Knezevic on 341061 during business hours - these two contacts being for all teams.

JUVENTUS - THE SUPPORTERS

Behind every good team there is the inevitable backbone of supporters; the men and women who put their shoulders to the club wheel to keep it rolling.

Juventus is no exception. Always hovering in the background and always to the forefront of administration and fund raising are men like Bruno Candon.
He is the big guy with the curly hair and thick moustache, always standing near the Coach's bench.

Bruno is, and has, been a key member of the Committee for some seasons as well as a personal friend and mentor to many of the younger players. This season he also is one of the three selectors for the senior team and match manager for the thirds.

Bruno travels from New Norfolk several times a week to watch training or attend committee meetings and matches. He still finds time to have a well-loved glass of the amber fluid. There are many more at Juventus like Bruno. We hope to bring them to your notice in coming weeks.

By the way, the big opening social event for the Juventus club is on Saturday, April 16th at the Australian Italian Club of course. A good band, good meal and a lovely atmosphere. A GREAT TIME GUARANTEED.

FIRST AID - SPRAINS & DISLOCATIONS

These are injuries caused when ligaments which bind the opposing bony surfaces together are forced beyond their normal range, leading to stretching or tearing and displacement of the joint surfaces.
If the force applied is sufficiently violent, the ligaments may be completely disrupted or the bones may be pushed out of their normal contact with each other - this is dislocation.

SIGNS & SYMPTONS

Whether sprained or dislocated, an injured joint is very painful and cannot be moved without increasing the discomfort. Swelling is usually marked and discolouration, due to bleeding beneath the skin, develops quickly.
Remember that sprains and dislocations are often associated with fractures of adjacent bones.

TREATMENT OF DISLOCATIONS

Do not attempt to reduce the dislocation - obtain medical aid at once.
In the Case of a Limb- rest the joint in the most comfortable position, elevate if possible, expose the joint and apply ice packs or cold compresses - use soft padding to eliminate any jolting during transportation.
In the Case of the Lower Jaw- the casuality is unable to close the mouth - remove any dentures, support the lower jaw as for a fracture without trying to close the mouth.

This series of articles, prepared by Brian Evans, will continue next week.
